EDUCATION

J.D., cum laude
William Mitchell College of Law, 2014
B.S., Biomedical Engineering and Physiology
University of Minnesota, 2008

BAR ADMISSIONS

Illinois
U.S. Patent & Trademark Office

Daniel draws on his engineering background to serve intellectual property (IP) clients in patent prosecution, opinion work, and all phases of trial and motion practice. He focuses on patent litigation in federal courts and *inter partes* review (IPR) proceedings before the Patent Trial and Appeal Board (PTAB). He works with global companies to protect innovations relating to medical devices, automotive and aerospace components, design patents, and computer software. Having spent six years as a biomedical engineer, Daniel understands the complexities and challenges of technology design and implementation, and how these can be leveraged in patent applications and adverse proceedings.

Daniel has been involved in bench trials and mock jury trials; arguing motions and discovery disputes before judges and court-appointed Special Masters; taking and defending depositions; drafting summary judgment and appellate briefs; drafting IPR and reexamination briefs; drafting pleadings on invalidity, noninfringement, and claim construction issues; and managing teams during all aspects of fact discovery. Daniel is also a contributor to the patent treatise, *Robert L. Harmon et al., Patents and the Federal Circuit* (Bloomberg BNA), and has held the position since 2014. In addition to IP, Daniel is committed to pro bono work. He focuses on issues related to fair housing and wrongful eviction, and has first-chaired multiple bench trials.

Before transitioning into law, Daniel worked at med-tech startups involving neuro-stimulation treatments for obstructive sleep apnea, and ophthalmology treatments for cataracts and glaucoma. He is an inventor on three issued patents (plus one pending patent application) and has authored multiple academic publications. He graduated with honors from the William Mitchell College of Law, holding an editor position in an IP law journal. Daniel holds a Bachelor of Science from the University of Minnesota, double majoring in Biomedical Engineering and Human Physiology.

EXPERIENCE | LEGAL

- **Brinks Gilson & Lione**, Chicago, Illinois
Associate, 2014-Present
Summer Associate, 2013
- **ClarVista Medical Inc.**, Minneapolis, Minnesota
Patent Agent, 2013-2014
- **Apnex Medical, Inc.**, Minneapolis, Minnesota
Patent Agent, 2010-2013
- **Westman, Champlin**, Koehler, Minneapolis, Minnesota
Law Clerk, Summer 2012

EXPERIENCE | NON-LEGAL

- **OcuTherix, Inc.**, Minneapolis, Minnesota
Engineering Consultant, 2014
- **Apnex Medical**, Minneapolis, Minnesota
Biomedical Engineer, 2008-2013
- **3M**, St. Paul, Minnesota
Technical Aide, 2007-2008
- **University of Minnesota Diabetes Institute for Immunology & Transplant**, Minneapolis, Minnesota
Senior Undergraduate Engineering Project, 2007-2008
- **Mayo Clinic MRI Research Lab**, Rochester, Minnesota
Summer Undergraduate Research Fellowship, 2006

EXPERIENCE | CIVIC ACTIVITIES

- **Lawyers' Committee for Better Housing**, Chicago, Illinois
Public Interest Law Initiative (PILI) Fellowship, April-August 2014
Young Professionals Board member, 2015-present
